"Gildas is Ruth White's discarnate guide who is currently teaching about a new octave of colours and sacred geometric shapes. The recent talks have been about magenta and the sphere, new orange and the ellipse, new yellow and the oval, symbolic of moving from the known to the unknown - the egg from which the new potential comes. These expanded colours are into the infra vibration that goes below infra red to a slower vibrating note. At present these lower and higher vibrational notes of colour and sound are not picked up by our normal organs of perception, but as we expand ourselves our organs of perception will change and become receptive to the colours and sounds.

Gilda's talks are very interesting indeed and there is the opportunity to dialogue with him and ask questions"

Ruth White has written several books and has a website www.ruthwhite-gildas.co.uk

There are also Gildas and Ruth White teaching days in London one Sunday a month - details from Ruth's website or her phone 01273 584060.

Maryrose is very happy to offer over night staying for anyone wishing to come from a distance. Please contact her for further information.
